Re: MB Docket No. 10-56

Dear Chairman and FCC Commissioners,

Comcast has been an incredibly valuable partner to the Tacoma, Washington, Chapter of the A. Philip Randolph Institute (APRI), and it has done a great deal to increase acceptance of diversity, and help us move towards equality in our region. I am writing today to express my support for the proposed merger of Comcast and NBC Universal.

Founded by two of the fathers of the American Civil Rights Movement, APRI, focuses on working towards affirmative action, wage equality, healthcare reform, labor law reform and better education and training programs. Comcast has made great efforts to not only conduct its business with a priority on diversity, but to support organizations and media groups that fight for equality and bring us closer to a color blind society. APRI greatly appreciates and admires the emphasis on diversity that Comcast and CEO Brian Roberts have made. As a result, Comcast is a nationally recognized leader for diversity in the workplace and a supporter of diversity in the community.

In addition to its unwavering support for our mission, Comcast has provided a tremendous gift to the students of Tacoma by funding our branch's summer education program. Each year Comcast ensures that as many as 20 students who are short of graduation requirements can take the summer courses necessary to fulfill their credit requirements and graduate with their class. This amazing gift allows students to earn their diploma, opening up a world of opportunity to them which most would not experience otherwise. We would offer Comcast as an excellent example of a corporation making a difference and allow Comcast to proceed in merging with NBC Universal.

EG DE

With Warmest Regards,

President, Tacoma Chapter of the A. Philip Randolph Institute
